Coronavirus (COVID-19) has been identified as a pandemic by the World Health Organisation. We are all taking measures to protect ourselves and others, and as we continue to follow Public Health England (PHE) and central Government advice ([www.gov.uk/coronavirus](http://www.gov.uk/coronavirus)) in these unprecedented times, we also need to remember to protect our mental health alongside our physical health.

In this document, you will find tips and advice on coping during this uncertain time, and the mental health and wellbeing support available to you in Warwickshire.

# Remember the five ways to wellbeing:

## Connect

**Maintaining healthy relationships** with people you trust is important for your mental wellbeing. Think about how you can stay in touch with friends and family while you are at home – by phone, messaging, video calls or online – whether it's people you usually see often or reconnecting with old friends or neighbours.

**We are all going through this together so even when we're not face-to-face, continue to keep in contact and look out for each other.**

## Keep learning

Create a new daily routine that prioritises looking after yourself. You could try reading more or watching movies, having an exercise routine, trying new relaxation techniques, or finding new knowledge on the internet. Try and rest and view this as a new if unusual experience that might have its benefits.

Give ideas for passing the time when you're social distancing: share your favourite books, recipe ideas or make playlists for each other. Whatever you enjoy doing in your spare time, share it with each other.

Remember that you can access digital reading material online for free from Warwickshire Libraries. If you normally enjoy newspapers and magazines but are not able to visit shops, you can also access newspapers and magazines online for free via Press Reader.

You could also have a look at online courses, such as those available from the Open University <https://www.open.edu/openlearn/free-courses> and Future Learn <https://www.futurelearn.com/>

## Be active

Keeping up with your physical health is also important for your mental health:

- NHS Choices provides ideas with video links: <https://www.nhs.uk/live-well/exercise/>
- Change 4life – 10-minute shake up games to try out with kids <https://www.nhs.uk/10-minute-shake-up/shake-ups>
- Try out online yoga videos tailored to help with anxiety and tips on mindfulness (<https://www.youtube.com/user/yogawithadriene>)
- If you're home with kids, there are yoga videos for them as well (<https://www.youtube.com/user/CosmicKidsYoga>)

This is provided as information only. If you have a medical condition, you should continue to follow advice given by your health practitioner/GP.

To promote healthy aging, Warwickshire County Council have produced a series of gentle exercise videos to help you keep active at home, find these here: <https://www.youtube.com/playlist?list=PL9f3C4Fbo5T-PPGxMZvK7B2NTYzdSI2QH>

## Give

Seeing yourself, and your happiness, linked to the wider community can be incredibly rewarding and creates connections with the people around you. Think what activities you can do at home that might benefit others.

Warwickshire County Council has developed a webpage containing practical advice about giving or receiving help at this time: <https://www.warwickshire.gov.uk/information-coronavirus/covid-19-advice-individuals/1>

Remember to follow Government guidance (<https://www.gov.uk/coronavirus>) and if you must leave the house, maintain social distancing measures (e.g. keep a 2-metre distance between you).

## Take notice

Take notice of Nature – bringing nature into your everyday life can benefit both your mental and physical wellbeing. It can improve your mood, reduce feelings of stress or anger, and make you feel more relaxed. You could try the following:

- **Spend time with the windows open to let in fresh air**
- **Spend time in your garden if you have one.**

Take notice of yourself - there are lots of different ways that you can relax, take notice of the present moment and use your creative side.
